**THE EFFECTIVE USAGE OF ELLIPTICAL SENTENCES IN KAZAKH AND ENGLISH LANGUAGES**

**Abstract**

The article discusses the history of elliptical constructions in Kazakh and English. On the basis of ellipsis, the opinions of domestic and foreign linguists are presented. The author analyzes works devoted to this issue and examines the problem of incomplete and elliptical sentences, focusing on which constructs are incomplete and which are elliptical, as well as the distinction between the two. These samples of such constructs can demonstrate classification-based distinctions. The most prevalent structural and semantic categories of elliptical sentences in both languages are distinguished, analyzed, and compared.

**Keywords:** ellipsis, elliptical sentence, typology of languages, incomplete sentence, omission, word-economy.

**Аңдатпа**

Мақалада эллиптикалық құрылымдардың қазақ және ағылшын тілдеріндегі тарихы қарастырылады. Эллипсис тақырыбы бойынша отандық және шетелдік лингвистердің пікірлері ұсынылған. Автор осы мәселеге арналған еңбектерді талдайды. Толық емес және эллиптикалық сөйлемдер мәселесін қарастырады, қай құрылымдардың толық емес, қайсысы эллиптикалық, сондай - ақ олардың арасындағы айырмашылықтарға назар аударады. Мұндай құрылымдардың үлгілері жіктеуге негізделген айырмашылықтарды көрсетеді. Екі тілдегі эллиптикалық сөйлемдердің ең көп таралған құрылымдық және семантикалық категориялары ерекшеленеді, талданады және салыстырылады.

**Түйін сөздер:** эллипсис, эллиптикалық сөйлем, тілдердің типологиясы, толық емес сөйлем, өткізіп жіберу, сөздерді үнемдеу.

**Аннотация**

В статье рассматривается история эллиптических конструкций в казахском и английском языках. По теме эллипсиса представлены мнения отечественных и зарубежных лингвистов. Автор анализирует работы, посвященные данному вопросу, и рассматривает проблему неполных и эллиптических предложений, акцентируя внимание на том, какие конструкции являются неполными, а какие - эллиптическими, а также на различии между ними. Образцы таких конструкций могут продемонстрировать различия, основанные на классификации. Выделяются, анализируются и сравниваются наиболее распространенные структурные и семантические категории эллиптических предложений в обоих языках.

**Ключевые слова:** эллипсис, эллиптическое предложение, типология языков, неполное предложение, пропуск, экономия слов.
